Advanced Dental Charting

Fluence dental charting helps patients see themselves in the story of their procedure, and why the next treatment and timing is a necessary path to wellness. It also helps parents understand and make decisions about further treatment for their children.

Key Fluence-Charting Benefits

Simplify Charting & Intuitive Interface

Color-coded treatment planning. Streamlined processes that follow a natural workflow. Minimal training needed for new hires or current staff

Increase Patient Acceptance With easy Treatment Planning

Easily create multiple treatment plans. Arrange plans in your preferred order. Professionally illustrate each option for patients.

Boost Productivity with Easy two-step Charting Process

Select the procedure, then select the tooth and you're done. Charts designed to be painted right on the tooth so you can chart a multiple-surface

Save Time with Easy Access to Patient History

Charting history is stored simply and logically. Everything is sorted by procedure code, provider, date, and clinic.

Fluence Dental Scheduling & Appointment

With Fluence Dental Practice Management system you can, manage appointments with ease, anywhere at any time. Our one-click access to scheduling and patient data means you spend more time with patients and less on administrative tasks.

Key Scheduling Benefits

Easily Access Patient Data to Expedite Scheduling

With an easy to use, always visible navigation column, access patient data no matter where you are in the system.

Create the Perfect Master Schedule

You can use simple icons and coded layouts to display your daily schedules perfectly.

Improve Patient Satisfaction with Easy Self-Scheduling

Patients enjoy faster check-ins, reduced on-hold times, and easier appointment scheduling.

Streamline Scheduling Using Easy, yet Powerful Tools

- Change any appointment or group of appointments with simple drag-and-drop functionality.
- Quickly block out dates/times based on your needs and availability.
- Create custom views for any operatory or provider.
- Move forward or backward in any range of dates with just one click.
- Access all scheduling information from any internet-connected device.

Fluence Dental Imaging

We've simplified things by pre-setting image manipulations,
capturing digital images directly from machines to Fluence system,
and securely storing them in the Database in real-time.
Robust imaging features can be easily added to Fluence,
eliminating external bridges or cumbersome third-party integrations.

Key Fluence-Dental Imaging Benefits

Simplify Imaging Process

- By overlaying FMX images over patients' charts, you get a clear understanding of what you're examining.

- All images are integrated with the patient record, so you can access all the information you need in one place.

Streamline Image Manipulations

- Save time by recording and saving a series of preferred manipulations and filters.

- Apply a saved set of adjustments to any image with a click of the mouse.

- Easy adjustments for gamma, rotate, sharpen, and invert.

Fluence Dental Reporting

Choose from a large selection of standard dental reports written for you or easily customize them so you can view information the way you want it. Reposition a column, change or remove filters on the fly, and your reports are updated in a flash. Even save a template you've created for future use. If the flexibility of Fluence Dental Practice Management system reports seems endless, maybe it's because it is!

Key Fluence-Dental Reporting

Deep practice insights with customizable reports

Make key business decisions from actionable dashboards

Stay informed with always current financial reports

Instantly access appointment details

Boost revenue with detailed treatment plan reports

Easily analyze recare reports
